MAKE IT YOUR OWN

Before you start building and decorating your model, make a plan. Do you want to make a replica or create something of your own design? Anything goes!

PLAN

For this project, you will want to paint the engraved pieces separately before assembling. Study the photo of the painted model and images of the actual crest carefully. Pay attention to where the shading is added.

TECHNIQUES

Use the smallest paintbrush you can find, and take your time. Paint the flat, engraved pieces first. Let dry and then assemble. You can paint the other pieces once assembled.

COLOR

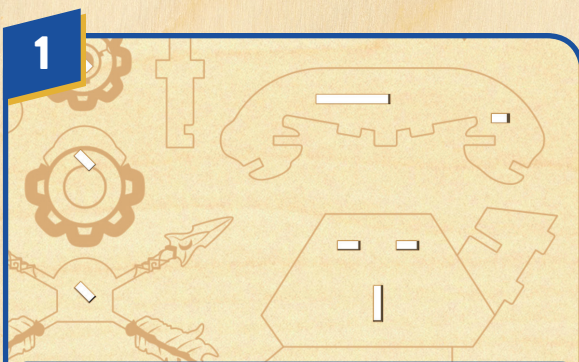

Use different shades of gold, blue, silver, purple, and gray to add depth with shading. Remember you can always add white to a color to make it lighter or black to make it darker.

ACCESSORIZE

For some of the very fine detail, you may want to use a fine-point pen in the color of your choosing.

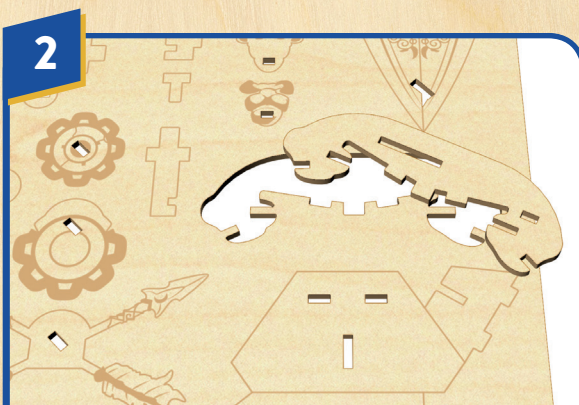

1

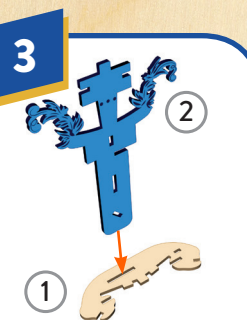

To find your first two pieces, look for pieces 1 and 2 on the board.

2

Pop out only these puzzle pieces from the board.

3

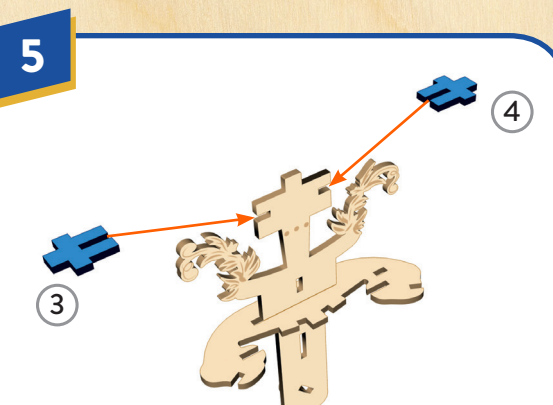

To put the two pieces together, match up the slots on each piece. Slide together.

4

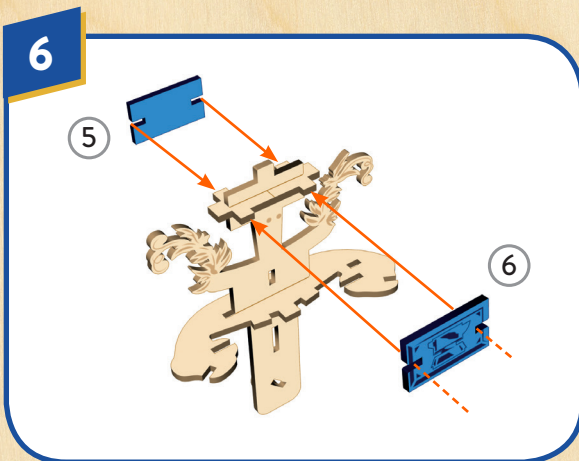

Continue assembling by putting pieces together in numerical order.
