# MAKE IT YOUR OWN

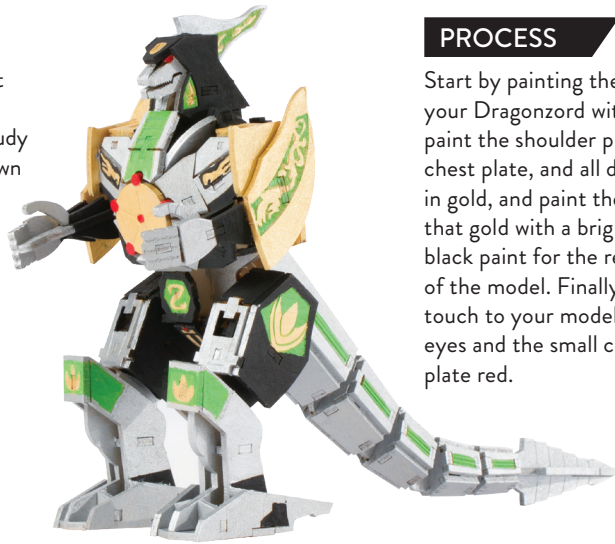

Before you start building and decorating your model, make a plan. Do you want to make an exact replica of the project below or create something of your own design? Anything goes!

### PLAN

For this project, you will want to fully assemble the model before beginning to craft. Study the crafted model image shown very carefully.

### TECHNIQUE

Use a fine paintbrush and take your time, especially for the smaller engraved details.

### PROCESS

Start by painting the metal details of your Dragonzord with silver paint. Then paint the shoulder plates, center circle chest plate, and all decorative emblems in gold, and paint the areas surrounding that gold with a bright green. Add some black paint for the remaining sections of the model. Finally, add the finishing touch to your model by painting the eyes and the small circles on the chest plate red.

1

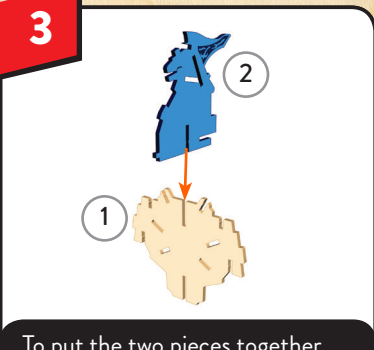

Find pieces 1 and 2 on the board.

2

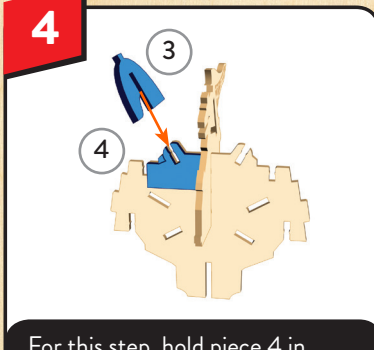

Pop out only these puzzle pieces from the board.

3

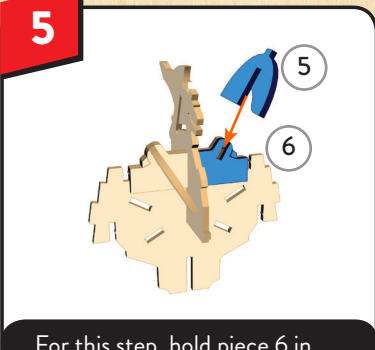

To put the two pieces together, match up the slots on each piece. Slide together.

4

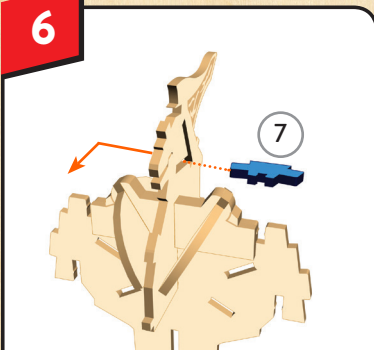

For this step, hold piece 4 in place and then slide piece 3 into place.

5

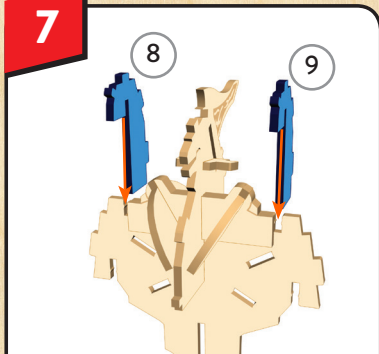

For this step, hold piece 6 in place and then slide piece 5 into place.
