BUILDING INSTRUCTIONS

READ BEFORE ASSEMBLING:

- Go through the instructions one step at a time.
- Don't punch out all of the pre-cut parts at once.
- Plywood thickness and color may vary.
- While not necessary, glue may be applied if desired.
- If you have trouble punching out the small pieces from the board, use tweezers or a toothpick to help.
- Adult supervision recommended.

WARNING: CHOKING HAZARD - CONTAINS SMALL PARTS. NOT FOR CHILDREN UNDER 3 YRS.

MAKE IT YOUR OWN

Before you start building and decorating your model, make a plan. Do you want to make a replica of the project below or create something of your own design? Anything goes!

PLAN

For this project, you will want to paint the model after it's been assembled. Study the painted photo carefully.

TECHNIQUE

Use a fine paintbrush and take your time, especially for the smaller details.

COLOR

Use red and white for the majority of the model, then use blue, brown, and green for the boots and other details. Use shades of flesh-colored paint to add some dimension to the face. Remember you can always add white to a color to make it lighter or black to make it darker.

1

Find pieces 1 and 2 on the board.

2

Pop out only these puzzle pieces from the board.

3

To put the two pieces together, match up the slots on each piece. Slide together.

4

Continue assembling by putting pieces together in numerical order.

5

6

7

8

Turn the model around 180 degrees.
