BUILDING INSTRUCTIONS

Manufactured in Shaoguan, China 000092019

READ BEFORE ASSEMBLING:

- Go through the instructions one step at a time.
- Don't punch out all of the precut parts at once.
- Plywood thickness and color may vary.
- While not necessary, glue may be applied if desired.
- If you have trouble punching out the small pieces from the board, use tweezers or a toothpick to help.
- Adult supervision recommended.

WARNING: CHOKING HAZARD - CONTAINS SMALL PARTS. NOT FOR CHILDREN UNDER 3 YRS.

MAKE IT YOUR OWN

Before you start building and decorating your model, make a plan. Do you want to make an exact replica of the project below or create something of your own design? Anything goes!

PLAN

For this project, you can paint the wings, arms, legs, head, and body all separately. Then, assemble your model once the pieces are dry.

TECHNIQUE

Use a fine paintbrush and take your time, especially for the smaller engraved details. To give your model more depth, use darker shades of paint for shadows and lighter shades for the highlights.

COLOR

Start by painting the leather wings a medium brown color. Using a light tan color, paint the engraved ribbing on the wings, and add some highlights to give the wings a more leathery texture. Then, paint the metal structure on the tops of the wings gold. Next, start painting the head and body section by coloring the beak, eyes, chest ring, and shoulder rings gold. The breathing tube should be black and the leather suit should be brown. With a reddish cream color, paint in stitches to the headpiece and shoulder straps. Then, add a fiery touch to the eyes by blending some yellows and oranges. Finally, move on to the arms and legs of the model by painting everything a dark gray. Paint the leather kneecaps brown while painting the hands and feet gold. And lastly, add thin, light gray strokes for stitches along the thighs and calves around the knee patches.

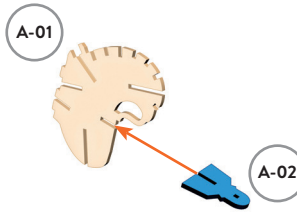

1

Find pieces 1 and 2 on the board.

2

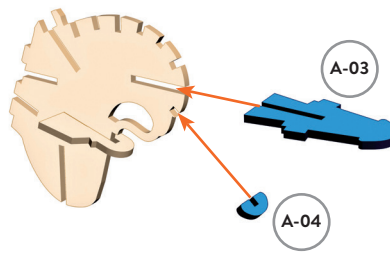

Pop out only these puzzle pieces from the board.

3

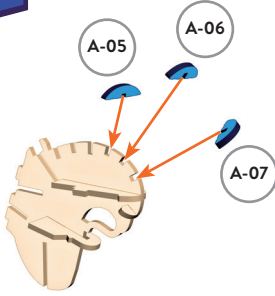

Look carefully at the orientation of each piece shown. To put the two pieces together, match up the slots on each piece. Slide together.

4

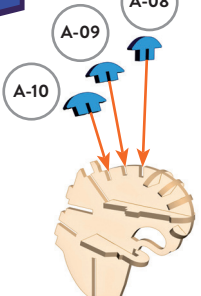

Continue assembling by putting pieces together in numerical order.

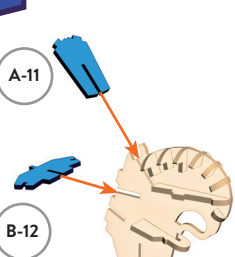

5

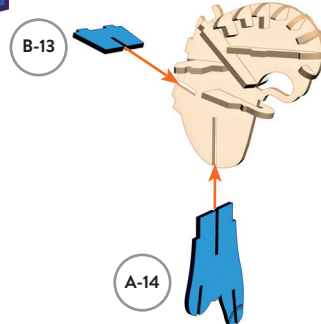

6

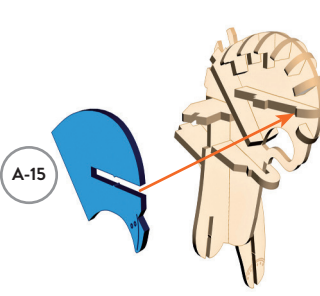

7

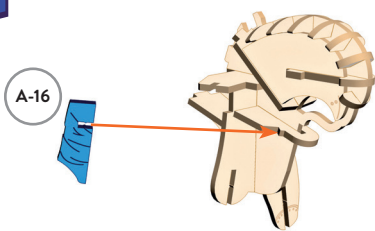

8

9

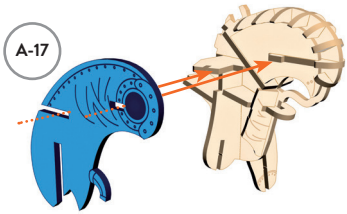

10

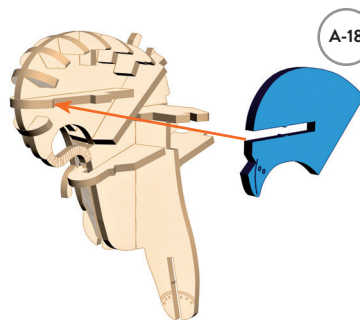

Attach piece 16 so that it forms a 45-degree angle with piece 1.

11

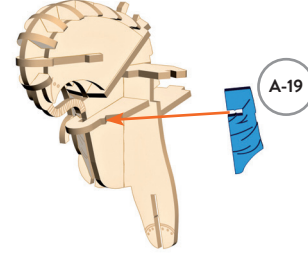

Take your time and line up piece 17 with the model. The two slots on the back should connect with pieces 12 and 14.

12

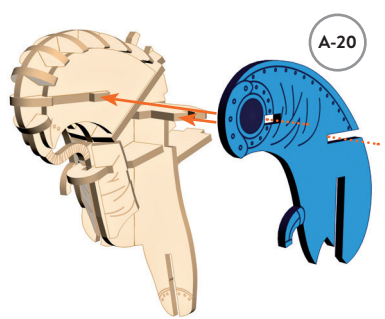

13

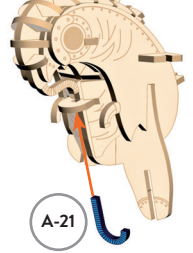

Attach piece 19 so that it forms a 45-degree angle with piece 1.

14

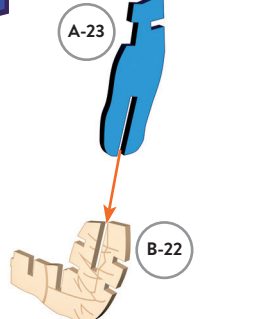

15

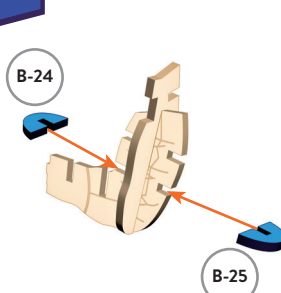

Be very careful attaching piece 21 so it doesn't accidentally snap.

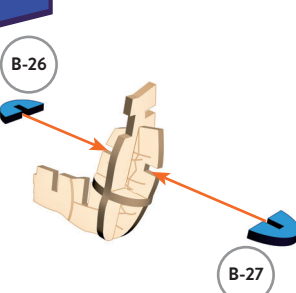

16

17

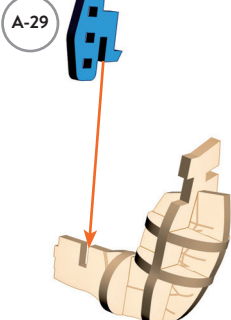

18

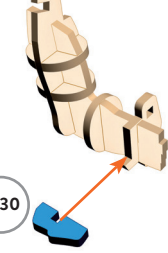

19

20

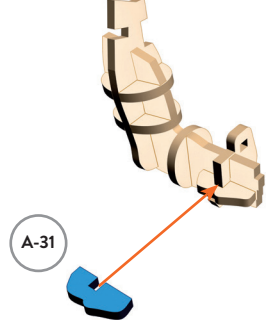

21

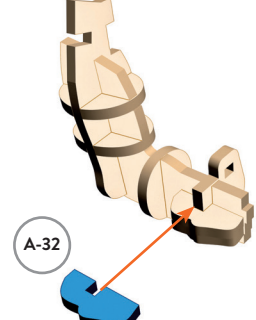

Attach piece 30 at the lowest possible spot of piece 29.

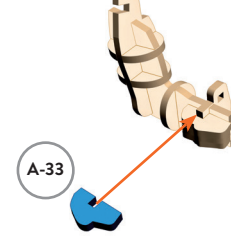

22

23

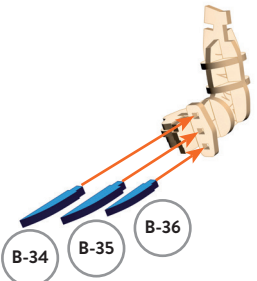

24

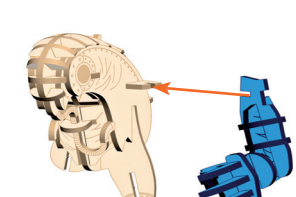

If piece 33 doesn't fit into place, try pushing down pieces 30-32 even farther to make room.

25
