MAKE IT YOUR OWN

Before you start building and decorating your model, read through the instructions so you understand how it all comes together. Then make a plan—green or glittery? What about a plaid pineapple? The choice is yours! Here is an example to get those creative juices flowing.

PLAN

For this project, assemble everything before you paint it.

TECHNIQUES

A small flat brush and a tiny detail brush will make painting this model easier. Paint each piece of the pineapple skin as its own unit, but work in colors. For example, paint all the tops of the pieces yellow, then move on to the next color, and so forth.

COLORS

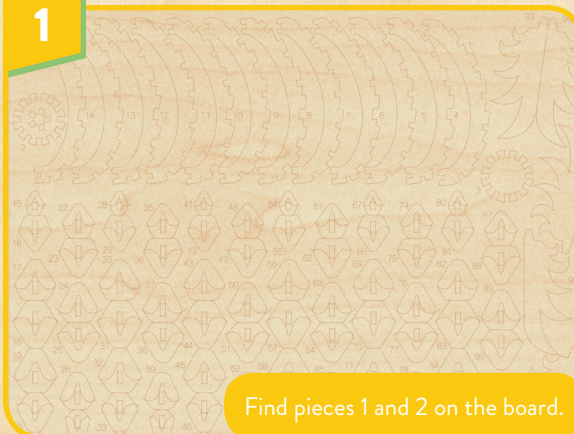

To represent a ripe pineapple, paint each piece of the pineapple skin yellow above the engraving line. Paint it brown under the engraving line. A nice bright green is perfect for the pineapple leaves.

ACCESSORIZE

Add a darker yellow to the edges of the pineapple skin for more depth. And you can trace the engraving with green paint for extra flair.

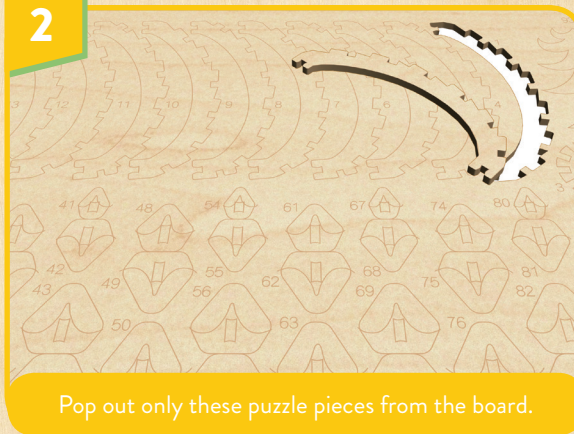

1

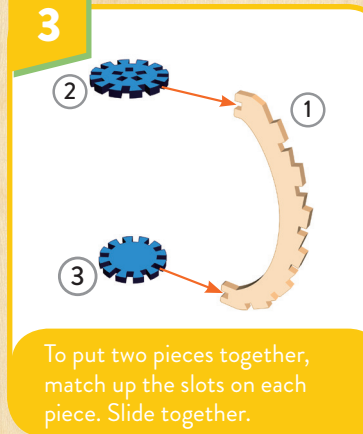

Find pieces 1 and 2 on the board.

2

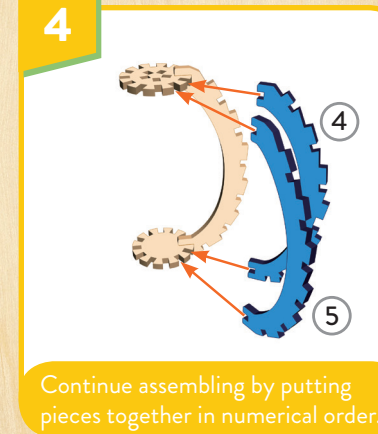

Pop out only these puzzle pieces from the board.

3

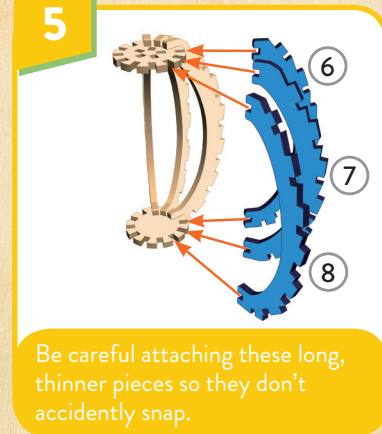

To put two pieces together, match up the slots on each piece. Slide together.

4

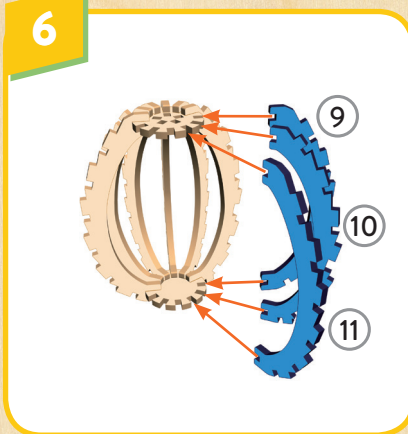

Continue assembling by putting thinner pieces together in numerical order.

5

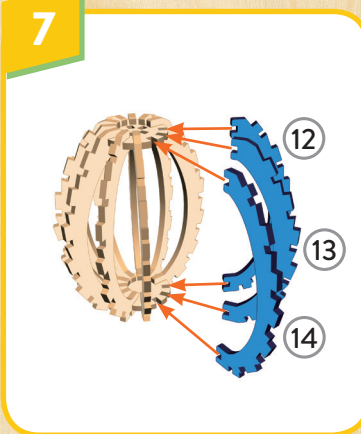

Be careful attaching these long, thinner pieces so they don't accidentally snap.
