MAKE IT YOUR OWN

Before you start building and decorating your model, make a plan. Do you want to make an exact replica of the project below or create something with your own flair? Anything goes!

PLAN

For this project, it's easiest to paint your model fully assembled.

TECHNIQUES

Use a standard paintbrush, and take your time. A thin brush with a sharp point is best for the smaller details.

COLORS

Use the reference image as a guide to paint the larger areas of color. Yellow doesn't cover other colors well, so paint it first (including the dots and star in the center circle). The color of the center circle and outermost ring edge is a mix of orange and red. The dots in the yellow ring are orange. Use a super fine brush to paint the purple lettering. If you accidentally go outside the lines, you can scratch off the purple paint after it's dry.

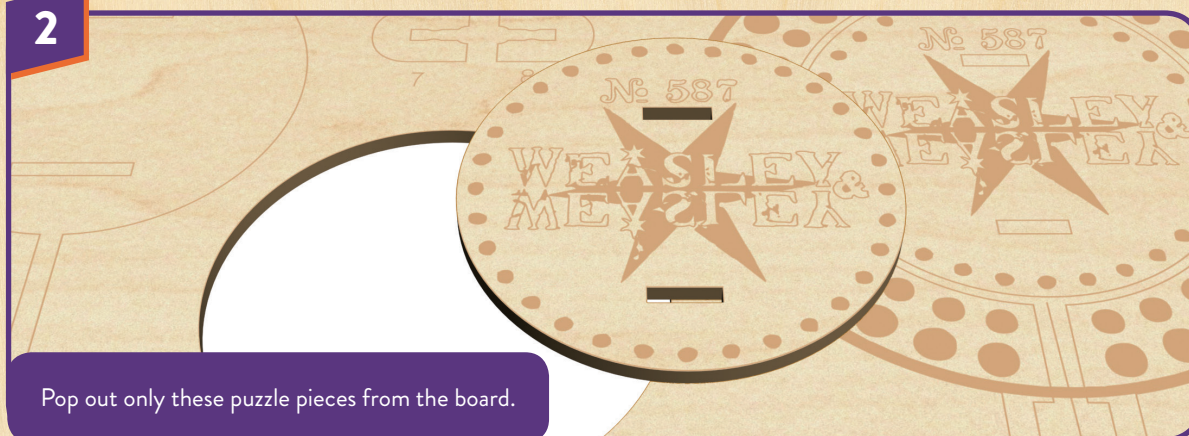

1

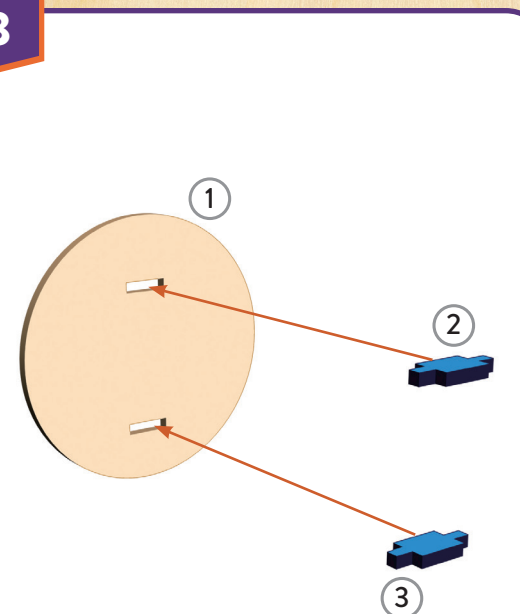

Find pieces 1 and 2 on the board.
