DID YOU KNOW?

EIFFEL TOWER

Built in 1889, the Eiffel Tower was a shining beacon of the Belle Époque (French for “beautiful time”). It has withstood the test of time—and two world wars—to become a premiere international landmark today. Featuring industrial ironwork and beautiful art nouveau touches, the Eiffel Tower has maintained its status as a symbol of Paris. Its designer, Gustave Eiffel, once said, “I ought to be jealous of the tower; it is much more famous than I am.”
